# Selling CI/CD

## For technicals

# Table of Contents
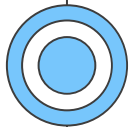

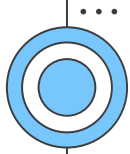

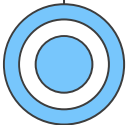

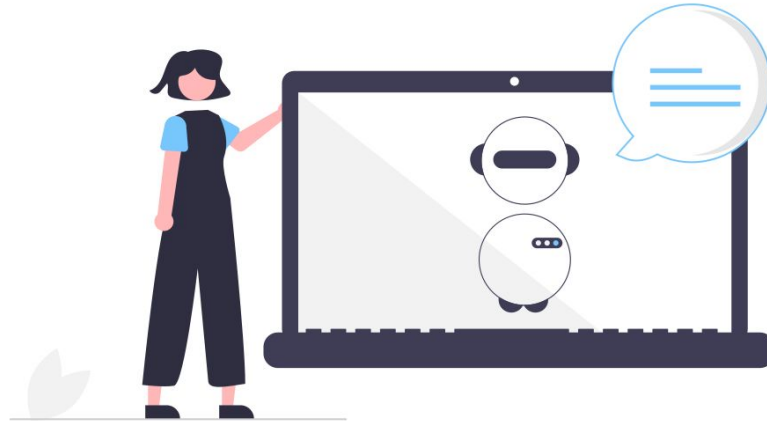

# Catch Unit Test Failures

Catch Unit Test Failures will reduce the costs of solving this issue rather than surprisingly, found the problem in the late development stages and this will avoid this costs
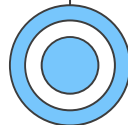

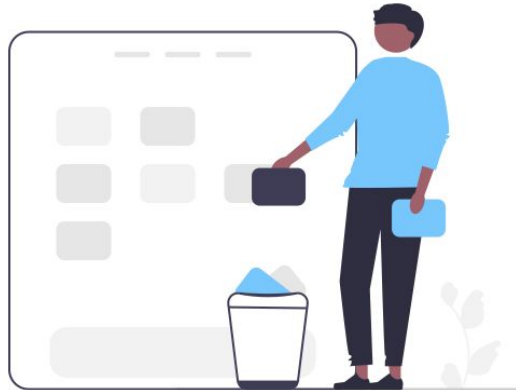

# Automate Infrastructure Creation

Automate Infrastructure Creation will reduce the human error to the minimum , Faster deployments also will reduce the costs
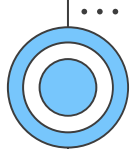

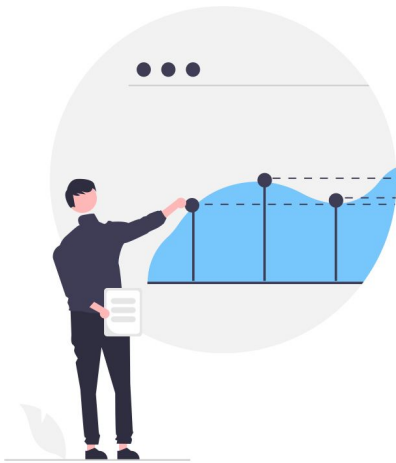

# Automate Infrastructure Cleanup

Automate Infrastructure Cleanup will reduce the cost from unused infrastructure, and no more forgetting to clean up resources
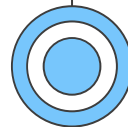

# Deploy to Production Without Manual Checks

Deploy to Production Without Manual Checks will reduce the human error to the minimum. And less time to market needed which will increase the revenue

# Thanks!
